Mar 26th (4 months ago)

any update please!

assassin_marcos posted a comment.

Apr 12th (4 months ago)

is it resolved @klm?

shakataganai posted a comment.

Apr 13th (4 months ago)

It's a work in progress. We've found more methods to bypass the redirect internally so engineering is still working to fix this. We'll let you know when there is more news.

shakataganai closed the report and changed the status to Resolved.

Apr 29th (3 months ago)

This issue has been resolved in production. Thank you for helping Smule Sing Securely!

assassin_marcos requested to disclose this report.
