Hi team ,

I got a Open redirection while saving account setting . This could lead to serious issues .

Endpoint :- https://moneybird.com/user/edit?return_to=//evil.com**Reproduce :-**

- Visit https://moneybird.com/user/edit?return_to=//evil.com and click on [Save](#) .
- You will be take to evil.com .

Impact :-

Attacker can redirect a user to a fake login page easily to get his login and other sensitive infos .

Thanks .

[ivh](#) changed the status to Triaged.
